Upper Endoscopy Preparation Instructions

One Week Before Your Procedure

- Notify our office if you have had any major changes to your health since you scheduled your procedure.

- If you are receiving sedation, a responsible adult must accompany you to check-in, remain onsite, and be present for discharge. You may use a rideshare, taxi, or public transit, but your escort must ride with you, as hired drivers do not meet safety requirements.

- If you take **blood-thinner or anti-platelet medications**, (ie. Plavix, Coumadin, Pradaxa) or any **diabetic or weight loss medications** (ie. Ozempic, Trulicity) please reference [Medication Instructions](#).
- Continue taking all other medications, unless instructed by your physician or our nursing staff.

- Stop taking: oil-based vitamins/supplements (A, D, E, K or fish oil) for a full 7 days before your procedure.
- Stop using: any illicit drugs
